Subject: RE: Russian Approval of Dart 350 Basket, Bearpaws, and Aux Tank

Kim,

As discussed, I don't think it is necessary to update kits in stock with Russian approvals. Very small market. We can always send to customers after the fact.

Linda,

Your welcome.

Regards,
David

Can you also tell me if the stock should be updated as well?

Thanks,

Kim Johnston

Subject: FW: Russian Approval of Dart 350 Basket, Bearpaws, and Aux Tank

David,

The STC for the 578 and 607 is also used for the 700 & 701 products and they are mentioning the 700 & 701 documents. Does this mean that the Russian STC is good for them as well?

Thanks,

Kim Johnston

Subject: Russian Approval of Dart 350 Basket, Bearpaws, and Aux Tank

All,

As Alain mentioned earlier this week, with the assistance of our Russian Agent (Heliatica), we have received Russian approval of the D350-578 bearpaws, the D350-607 baskets, and the D350-794 aux tank. This is no small accomplishment since in Russia, approval is obtained by updating the Type Certificate to include the STCs. See attached.

Kim,

Please update the Product Specifications for D350-578, D350-607, and D350-794 to include just the last two pages of both of the attached documents.

Regards,

David

Subject: copies of ENG and RUS TCDSs for DART equipment

Dear colleagues –

Please find attached copy of IAC AR type certificate data sheet for AS350 and EC130 helicopters which from now on includes STCs for DART auxiliary fuel tank, heliutility basket and bear paws. We also attached copy of English translation of the TCDS.

As the process for this validation is officially finished, we suggest to prepare a joint press release which we can issue after 12th of May (sharp after Russian national May holidays and within good timing before HeliRussia exhibition).

BR,

Heliatica team
